

**OCTOBER 30,
2015**

GEOMETRY

Entry Task

Continue working on your homework from last night.
Problem Set 7 (pg. S.43)

Project Return

- Overall, most students did well on the constructions.
- Some students didn't completely use all of the resources.
- I will not offer re-take or re-submits, you are accountable for your original work.

Quiz Return

Most common errors:

- Confused vertical angle with complementary angles.
- Some students did not provide reasoning for their calculations, this was *at most* a 3.5 out of 5.

Computer Lab Guidelines

- One person per computer.
- Academic sites only.
- Log into kahoot.it to help build understanding of proofs.
- If you do not want to participate, bring your workbook to complete the homework.
- On your way out of the room, leave your workbook in the cabinet.
